

In the SPOTLIGHT!

Spaulding Academy is Presenting
at the
2025 CEC Convention & Expo in Baltimore, MD

Spaulding Academy on Choosing Love:

Addressing complex Special Education Students through the SEL lens. Their goal is to share with the audience that students can make meaningful life changes and break the cycle of adverse childhood experiences using explicit instruction in social emotional learning. Attendees will leave their session with an understanding that simple adjustments to their environments and culture can increase student participation, lower behavioral referrals, and increase academic performance.

Another Great Webinar in the Books

**We had an amazing turn out for our October webinar
"Progress Report Writing"**

Thank you for attending!

Join us for the next webinar in January

IEP Goal Writing

Next Webinar: **Writing Measurable IEP Goals**

January 30, 2025 4-5:15pm

An Individualized Education Plan tells a story of a student's strengths and areas of need based upon the results of comprehensive evaluations. As special educators, we are charged with telling that story. Together with a multi disciplinary IEP team, we design, build, and write meaningful and ambitious IEP goals that are connected to a student's present levels of academic achievement and functional performance. This foundation is the heart of a student's plan and key to writing measurable annual goals.

Please join New Hampshire's Council for Exceptional Children on Thursday, January 30th at 4pm for an informational webinar and discussion about writing measurable IEP goals with your colleagues.

**A CEC membership and other raffle prizes
will be available for participants.**
