NH CEC Spring Workshop:

CEC had a wonderful turnout for our spring workshop facilitated by Terra Geer. The training was informative and beneficial, providing practical strategies and helpful reminders for implementing accommodations for students with IEPs. The training also highlighted the importance of collaboration among general education teachers, special education teachers, and support staff to provide equitable access to instruction while promoting student independence, engagement, and academic success.

Teacher Self Care Corner

We are always suggesting to our students to take a break and go for a quick walk to regroup. Let's take that advice and step outside and take a quick 5 - 10 minute walk around your building or in the gym if it's empty. Get a drink of water or a warm cup of something. Clear your mind and breath.
